

Free-Motion Framework Video Trailer

In October 2018, I was honored to be included in C&T Publishing's video series of book trailers. At the [Quilt Market in Houston, TX](#), we shot almost an hour worth of footage for the promotion.

Through the magic of editing and the genius of [youtube](#), the video is only 7 minutes long. Hopefully, it will give you a good idea of how [Free-Motion Framework](#) can improve your quilting skills.

Take a peak here:

It was a blast to film, but my time slot was 3p. That is 3p after an entire day on the quilt market floor, buzzing around seeing friends and quilts. I promise I do not always look this exhausted. However, I do always talk about quilts.

I asked the producer, Amy to snap a picture of me before I left the shoot. And yes, I did wave a bit of a photoshop-magic-wand on this one.
