

eBooks on iTunes

eReaders

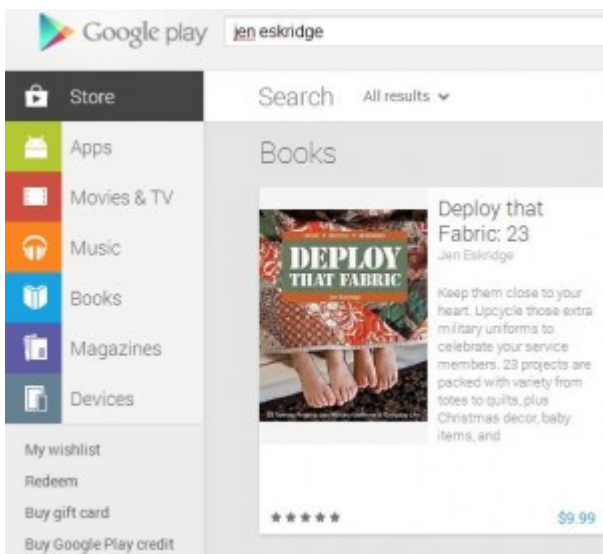

A friend asked me if any of my books are on iTunes. I have to say, I'd never thought about that. So I didn't have an answer for her.

After a quick search, I found that I am on iTunes. That got the wheels turning-what about the other e-reader stores? Well - yep. Yep. I'm there. [Deploy that Fabric](#) is on every outlet and [Learn to Sew Easy Curves](#) is on iTunes, too. WOW. iTunes. Me. Metallica. Cowboy Mouth. Beastie Boys. George Strait. Freakonomics Podcast. We are all there. Of course... those others knew they were in iTunes from the get-go, and well, they are famous and all. Me, welp, I love surprises!!!!
